LETTER OF REFERENCE

During the period since January 2012 till September 2013 StroyPlastEngineering LLC was the waterproofing and roofing contractor at the SRV Development LLC at construction of the biggest multifunctional complex in south-west of Saint-Petersburg «Pearl Plaza».

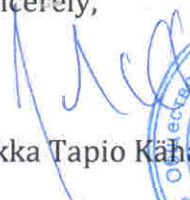

The contractor has carried out the undertaking obligations completely and practically in time and in the budget, that has allowed us to realize in full the idea of the unique project in spite of the fact that the task differed by extraordinary complexity. Works has been executed with good quality and in compliance with all our standards. Also I underline, that it was required from StroyPlastEngineering LLC to adhere strictly to the united specifications which are prescribed for all SRV objects. StroyPlastEngineering LLC entirely fulfilled these requirements.

Therefore I can say with confidence, that StroyPlastEngineering LLC is the high quality team of professionals, which works in accordance international standards. During works at the object it has shown a high level of management and precise organization activities of suppliers of materials on site. I would like to mention as well the competent attitude to documentation, skill to provide the information quickly.

StroyPlastEngineering LLC is distinguished with precise observance of Safety Rules, Ecological Requirements and Construction Regulations. Apart from the obvious things – such as quality, terms and discipline – in work of the company there is understanding of importance of constant communication with the customer and the coordinated work of all parts on site.

Cooperation with StroyPlastEngineering LLC left us the best impressions, and we are ready to invite them for participation in work at other our objects, and also to recommend StroyPlastEngineering LLC as highly skilled contractor for responsible construction projects.

Sincerely,

Jukka Tapio Kähärä

Project Director
SRV Development LLC
